SUMMARY

My name is Nate Worley and I currently work as a professional car photographer in Dallas, TX. I have a huge passion for computers and a love for innovation and creating. I am currently attending DeVry University for a bachelors in Software Engineering and am enrolled in SMU's Coding Bootcamp. I have been working as a professional photographer for 3 years and have been creating graphics professionally for 5 years. I have a very strong background and knowledge in Microsoft applications and Adobe products among other design programs to create any graphic or design need. I believe that this has well equipped me with the experience and skills needed to succeed in the tech and design industry. I have a strong desire to learn and have a very high learning agility. I believe this makes me an invaluable asset to any business or organization coupled with my experience in the customer service field as a manager, honed communication skills and leadership ability. With great personal drive, learning agility, a passion for computers and creating, I believe that I'm more than ready to turn my passions into a fulfilling career.
